

### JUSTIFICATION FOR URGENCY

NECC is requesting for an outside inventory source to inventory the NECC Central Issuing Facility (CIF) located at Cheatham Annex, Williamsburg, VA, Building 3 and Building 4. Due to circumstances involving possible criminal activity at that location, NECC needs an outside inventory agency to come and conduct an inventory at that location. NECC does not want the current personnel involved in the inventory. The approximate line items that need to be inventoried are 2,600 line items.

The requested start date is ~~25 JAN 2016~~. *15 Feb 2016*.

The above date is requested due to needing to have this inventory completed by ~~01 MAR 2016~~. *07 March 2016*.

This request is intended to provide NECC a baseline inventory at the CIF location to show any major inventory discrepancies that may have been caused by the possibility of criminal activity.
